

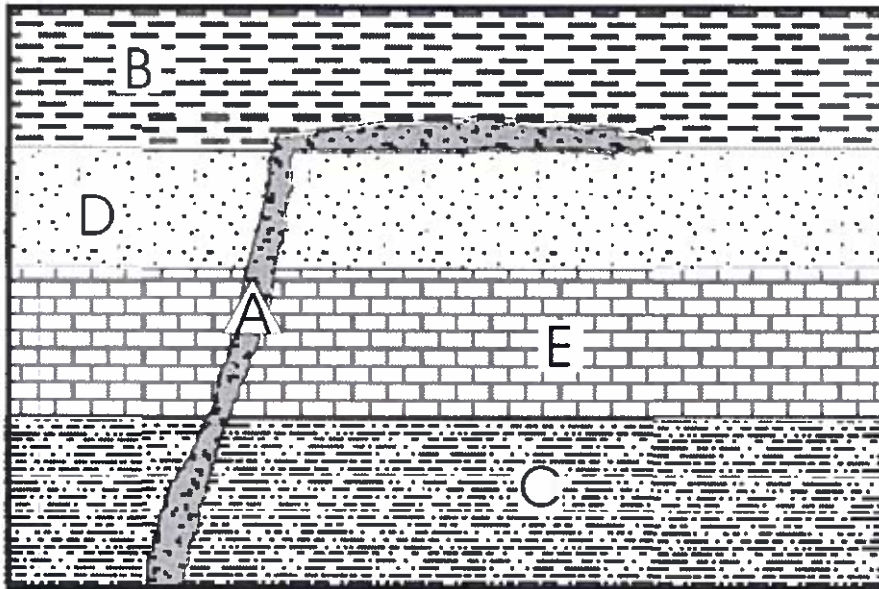

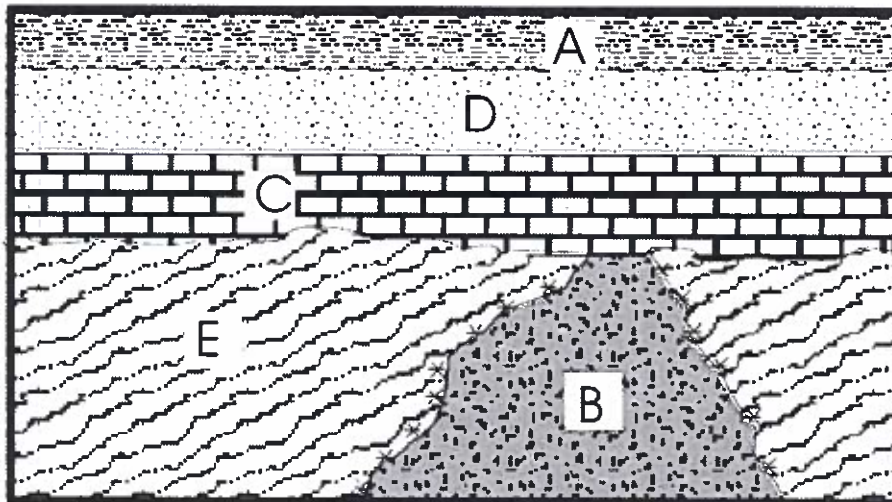

Figure 1:

Youngest A
B
D
E
 Oldest C

List the principles you used to determine the age relationships: _____

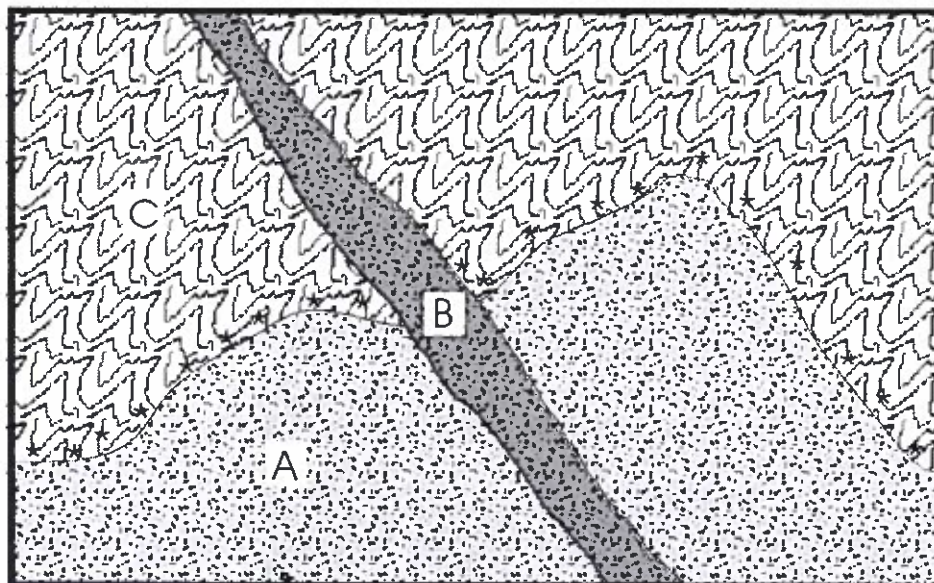

Figure 2:

Youngest A
D
C ← Erosion?
B
 Oldest E

List the principles you used to determine the age relationships: _____

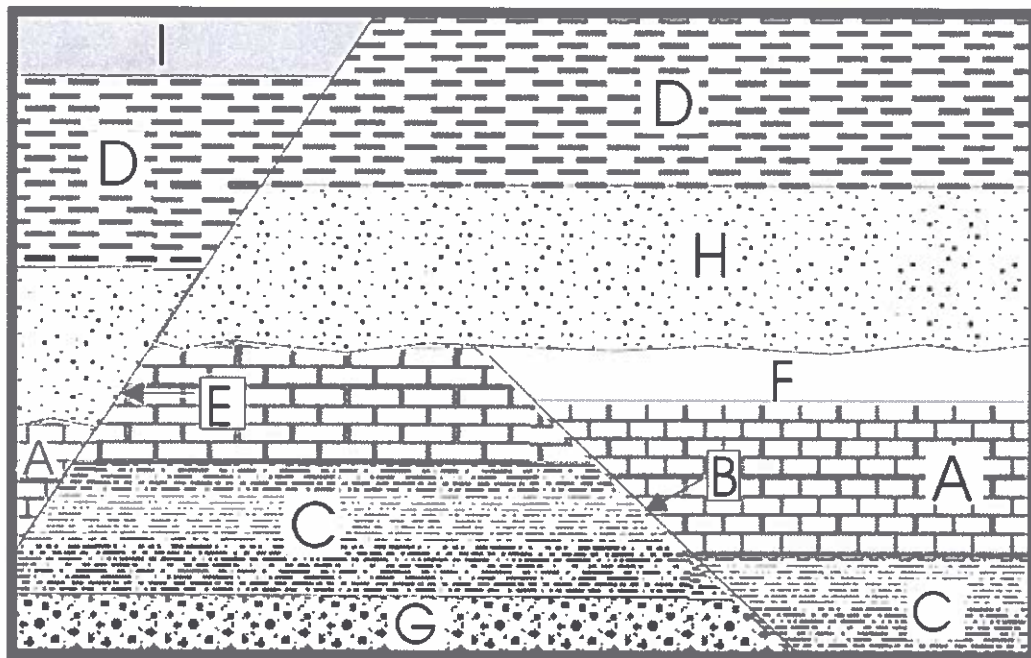

Figure 3:

Youngest B
A
Oldest C

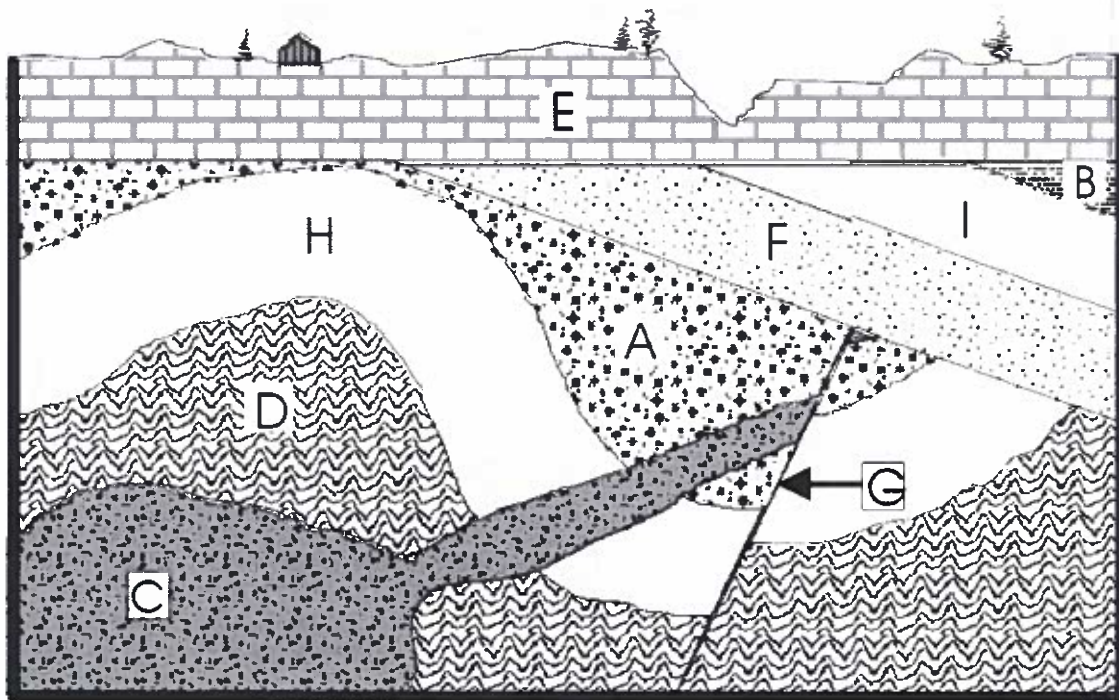

List the principles you used to determine the age relationships: _____

Figure 4:

Youngest E
I
D
H
B fault
F
A
C
 Oldest G

Figure 5:

Youngest E
B
I) tilted
F
G fault
C intrusion
A) folded
H
Oldest D

The folding event occurred between the deposition of which two rock layers?
